Keeping people in the loop about everything that's happening

A Mother's Prayer by Anonymous

Lord, give me strength just for today
To lead my children in your way;
Oh, give me wisdom, Lord, and grace
To show to them your precious face!

And help me, Lord, to teach them, too,
The things of Christ so rich and true,
Just let them see in me, dear Lord,
Your holiness in life and word.

Keep me from sinning with my tongue,
From harsh, quick words that might have stung
Their tender hearts that trust me so
And watch to see which way I go.

Dear Father, keep my thoughts so pure
That they will always know for sure
My Lord has lead me all the way,
Lord, grant my prayer just for today.

We acknowledge that we are on Treaty 4 territory, the original and traditional lands of the Nehiwayak (Cree), Saulteaux, Assiniboine and Metis Nations. We respect and honor the Treaties that were made on all territories; we acknowledge the harms and mistakes of the past; we are committed to moving forward in partnership with Indigenous Nations in the spirit of reconciliation and collaboration.

Looking back at April

The drive-through Ham Supper on April 9th was a successful, sold out event. Thanks to all volunteers who put this event together and to those who purchased tickets.

Lobster Supper

We have tentatively planned this for Friday, May 27th, and are currently getting a few people together to start the coordination for it.

Garage Sale

Mark your calendars for June 22, 23, 24 and 25 when Immanuel parishioners are having a garage sale in the Church Hall.

Alzheimer and Dementia

While the terms "Alzheimer's disease" and "dementia" are often used interchangeably, it's important to know the difference between the two.

- [Dementia](#) is not one specific disease. Rather, it's an umbrella term for a set of symptoms caused by physical disorders affecting the brain.
- [Alzheimer's disease](#) is the most common cause for dementia, accounting for 60-80% of all diagnoses.

Overall, know that Alzheimer's disease is a specific disease, while dementia is a general term for a group of similar diseases, of which Alzheimer's is one. In other words, every case of Alzheimer's disease is an example of dementia, but not every type of dementia is Alzheimer's.
